As per telephone interview, listing a species as “comprising” certain claims is also nonresponsive, since it is not all-inclusive, just as “at least claims ....” is.

Applicant’s election without traverse (no error recited) of the species of Fig. 4 is acknowledged. Claim 2 is withdrawn from further consideration by the examiner, 37 C.F.R. § 1.142(b), as being drawn to non-elected species, not all claims depending upon or otherwise including the limitations of an allowed generic claim.

*Applicant is reminded that if the amendment of any claims results in a change of the species they read upon, that is required to be indicated. In addition, if any new claims are added, it is required that the applicant indicate which of them read on the elected species. Failure to do so will result in a holding of nonresponsiveness.*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. § 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --  
(a) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 3-4 are rejected under 35 U.S.C. § 102(a), as being anticipated by Picca. The examiner finds all claimed subject matter to be present.

Art Unit: 3682

See col. 2, lines 62-64 and col. 3, lines 4-5.

Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
